## Deep Thoughts

by Rex Andy

*Achieving liftoff has been exciting, and I couldn't have done it without the help and support of the community - so thanks go to the Bay Area Orienteering Club, Ben Legg, Nick Corsano, Alex Finch, Brad Wetmore, Bob Cooley, the East Bay Regional Parks District, Tiffany Margulici, Santa Clara County Parks, and John Goldsworthy. I'm here to serve you and encourage your feedback!*

## Represent the Bay Area

Since July, I have created 3 new International Orienteering Federation ISSOM 2007 sprint standard maps of Lakeside Park, Merritt College, and Crown Beach. What would you like mapped next?

## Icy Hot Gossip

terraloco's first map nav training at **Briones** featured the chilliest "high fire danger" alert weather ever, despite the constant sun and cheer of the participants... the challenging **contour** course was underestimated, next time there will be a swim test... more **intermediate** level options are coming to future map nav trainings... 41% of **Briones** participants saved \$2 by registering online... looming ahead this Winter: a combined **course-setting workshop** and course-testing event... what do you want at future events?
